

TWO great systems become ONE profitable solution...

NAPA TRACS, the leader in shop management software since 1989, is now available with NAPA PROLink parts ordering... built right in!

TRACS completely eliminates handwritten paperwork by automating your service scheduling; estimating, invoicing and service reminders; daily profit reports... and a whole lot more. TRACS speeds your billing & accounting process and ensures accurate invoicing.

Now fully integrated with TRACS for the ultimate in parts ordering efficiency!

With PROLink / TRACS integration, simply start an estimate or repair order in TRACS, click PROLink to search for the parts you need...then transfer them directly to the ticket for purchase. PROLink's powerful new catalog integration includes:

- **CATALOG LOOK-UPS:** Search by part description, VIN, job type, category, number, key word or NAPA Interchange.
- **FIND-IT: NEW!** Search the complete NAPA channel for the parts you need at more NAPA stores, NAPA DC's and NAPA suppliers than ever before.
